Dear Sirs: Ten years ago, there was pure paint and 200 adulterated; now are now eight pure, 200 adulterated, about half of the latter short-weight besides.

There is still but one best, and the difference is ten gallons Devoe goes for as eleven next best—\$5—in ten gallons.

A new word has come up in paint; strong. Strong paint goes further, lasts longer; weak paint takes ten gallons and wears out sooner.

Proper cost of a 10-gallon job is \$55. Paint that takes 11 gallons makes it \$60. Paint that takes 12 gallons makes it \$66. Paint that takes 13 gallons makes it \$72. Paint that takes 14 gallons makes it \$78.

A \$50 job wears twice as long as a \$25 job. These figures are not pre-estimated; they are round. The 10-gallon Devoe. Yours truly, F. W. DEVOE & CO.

A SERIOUS ACCIDENT.

Two Ladies Fooling With Shotgun, When One Was Mortally Wounded.

As a result over a frolic with shotguns, Mrs. John Pons, who resides near Fairbanks, is lying in a dangerous condition at her home, the result of a wound inflicted innocently by her sister-in-law, who, as usual, didn't know it was loaded.

The ladies were playing with a couple of shotguns which were in the house, and playfully the sister-in-law pointed directly at Mrs. Pons, saying, "I am going to shoot you." With that she pulled the trigger, when the contents of the gun, a load of No. 8 shot, pierced the lower left limb of the lady.

Dr. J. H. Colson of this city was summoned, and responded promptly, when it was found that amputation of the limb was necessary, and it was taken off at the knee.

The patient is resting as easily as possible under the circumstances, but it will be several days before she will be enabled to leave her bed.

The Chapman Pictures.

Gainesville people will have an opportunity to see selections from the wonderful collection of over fifteen hundred bird pictures that Mr. Frank M. Chapman uses to illustrate his various lectures. Some of these pictures are drawings by the famous author and artist, Ernest Seton-Thompson, who is a personal friend and co-worker of Mr. Chapman; the great majority are photographs taken by Mr. Chapman himself in the native haunts of birds. All these pictures are accurately colored, under Mr. Chapman's direction, and a powerful projecting machine will throw them upon a large screen where they can be plainly seen from every part of the auditorium.

The history of this collection would itself make a story of thrilling interest with not a little spice of travel and adventure. Some of them were taken by Mr. Chapman suspended over the edge of towering cliffs with the surf beating below, others represent mountains scaled, swamps penetrated, dangerous trips in open boats, or daring works in tree-tops, and every one stands for times of skillful stalking or patient waiting for wild and wary birds to assume the desired pose before the carefully concealed camera. Some of this will be interwoven with Mr. Chapman's description of the birds and their habits, and it is safe to predict that everyone who attends will declare that the lecture was at once the most entertaining and instructive ever delivered in Gainesville.

Prof. H. A. Howell of Havana, Cuba, Recommends Chamberlain's Cough Cure.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3rd our baby was taken sick with a very severe cold; the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by all druggists.

Funeral of Mrs. Edson.

The funeral of Mrs. M. A. Edson, the sad death of whom occurred suddenly at Waldo Wednesday morning, will be held at the residence at 1 o'clock this afternoon, Rev. Dr. McNary officiating.

The remains will be taken to St. Louis, the former home of deceased, for interment.

The Free Street Show.

Dr. Livingston, with his free street show, is still the center of attraction with those who love good, wholesome fun, and the crowds which congregate to see the show nightly are well pleased.

Monday night will be Dr. Livingston's last night, and something rich is in store for our people, as on that evening he will have an "amateur night." This means that any young man who imagines he can do anything will be invited upon the platform, when they will be not to work at their preferred avocation. Prizes will be given for the best, and it goes without saying that the event will prove an amusing one.

The Miami News-Record says: "It is to be regretted that those who planted their neighbors on the land prepared to be drained by the Broward canal have lost all their crops by frost. That by Old Mother Nature escaped is a matter of congratulation."
